Showcase description

Hello, Upon obtaining my diploma in Advertising Graphics and Photography, I decided to dive into the Freelance world, collaborating with various companies such as Adidas, Feltrinelli, Riot Games, and some Influencers. This gave me the opportunity to work with different types of target audiences and on diverse projects. I have a very good command of the English language, having obtained the B2 certificate in London during a European project. I also have a solid knowledge of the following graphic software packages: Adobe Photoshop, Illustrator, After Effects, Premiere, UI&UX.

Curriculum
