Showcase description

Dear Sirs, My name is Riccardo Cannella. I am a professional in Graphic Design with a comprehensive educational background. My studies at ITS Angelo Rizzoli, combined with my practical experience, have allowed me to acquire various skills in graphic design, branding, and visual content creation. During my studies, I actively worked on several projects through which I learned to interpret creative briefs and translate them into graphic solutions. I have been part of various creative teams, which helped me improve both my ability to manage complex projects, even under pressure, and my attention to detail.
