

Debzdesign

Graphic designer

Location: Italy > Marche > Fermo

Years of Experience: 5-10
Employment Search: Si
Internships Available: No

Showcase description

I'm a graphic designer industry for 7 years, two years ago i decided to work like freelance. I'm always looking for new connection and partnership. I can do everything into graphics, from the study about logotype to brochure, catalogue, packaging and books editing! I'm already specialized into vectorial illustrations, but not using 3D program, i prefer study and compose the image a piece a time. I really wish to work with new people and to know new reality, if you want to contact me you just have to write me back at: debzdesign@gmail.com
