Showcase description

Born in Genoa in 1960, is a photographer practically from always, works as a professional for the last twenty years. Love the black and white and works in various fields (art, reportage, weddings) Her shots are almost always stolen, the result of momentary inspiration, love the atmosphere mysterious and rare, that Genoa (city in which she lives and works) often gives. Another great passion are the portraits in the studio and outside, especially for the deep contact established between photographer and subject.
