Showcase description

Hello, I am a recent graduate Franci in Advertising & Marketing Communications at the London Metropolitan University. I aspire to work in the world of creativity with regard to advertising. I did an internship at Leo Burnett in the final year of high school and I loved the way the company works in particular decisions made by the creative sector. For now I work at a company and I am pubblcitaria the sale of advertising space for a magazine. Despite this, I'm turning to do a masters degree in "International Creative Advertising" at the Manchester Metropolitan University in September 2010.
