Showcase description

3DSmithery is dedicated to the art of 3d Character Development. Characters Design, Modeling, Rigging, 2d and 3d Animation and Sculpting for 3d Printing. 3DSmithery is an independent character development house. We provide support in Character Design , 3d Modeling , Character Rigging , 3d Character animation and Character modeling for 3d printing. We love to animate and we are available to create the best animation for your project. Our experience includes feature films, comics, illustrations, TV spots, iPad? applications, and more. We design 3D characters that can be turned into realistic figurines or models. We can take your bright ideas, convert them into a 3D design ready for printing.
